PROFESSIONAL SUMMARY

- A full stack developer with 4+ years of experience in designing, developing and debugging web applications using HTML, CSS, JavaScript, JQuery, React.js, Node.js and MySQL. Possesses excellent knowledge of software engineering principles and experience in all stages of web development life cycle. Developed several web applications from scratch that are currently being used in production. Demonstrated ability to build a web application from concept to completion with high scalability and performance. Highly organized, detail-oriented and self-motivated individual with strong analytical problem solving skills and a passion for delivering best quality results.

EXPERIENCE

- May 2023 - Now

  Java Full Stack

  E-gain / India, Firozabad

  Work experience: Java Full Stack at E-gain, India (2023-05 - 2023-12)

  At E-gain, I worked as a Java Full Stack for 7 months. During that time I was responsible for developing and managing web applications, creating new features for existing applications, and providing technical expertise to the team. My main responsibilities included: designing database schemas, building APIs, developing front-end user interfaces, and debugging code. Additionally, I also assisted in deploying applications and ensuring quality assurance. In addition to the technical work, I also provided customer support for end-users and troubleshooting any issues that arose with the application.

EDUCATION

- 2021 - Now

  Computer Application

  Dr Bhimrao Ambedkar University / India, Firozabad
